About Us

Aluminum and its related accessories have excellent significance in automobiles, construction, metal fabrication, roofing, paneling, home furnishing, and several other applications. Auto Tech Industry is one of the leading traders and suppliers of Aluminum Grills, Rectangular Aluminum Sections, Silver Sliding Door Tracks, Aluminum Door Sliding Interlocks, etc. We have put together under a single roof a total spectrum of quality-assured product lines that are highly cherished in the national as well as international markets. We cater to the application needs of customers, working in close coordination with them. We are blessed by an advanced style of employee and process management system that has become fruitful for us in many ways. We have a team of experienced procuring agents who first go through the history and reliability of vendors before making business relationships with them.

Ever since the start of our business in 2002, we have been striving for the best and continuing to gain a true presence in the aluminum industry. Also, we understand that customers are our most valuable assets, and for this reason, we employ highly skilled manpower to render the utmost satisfaction to our huge client base. We are known for efficient, consumer-friendly services and offer excellent flexibility to fulfill the exact needs of our customers. Our organization is known best for its wide distribution network, fair business ethics, and quality-centric approach.
